EDUCATIONAL OBJECTIVES

The course is designed for neuro and ENT surgeons who want to acquire knowledge on endoscopic anatomy of the paranasal sinuses and the skull base and skills in endoscopic pituitary surgery.

Lectures from distinguish professors from the fields of neuroendocrinology, neuroradiology, ENT and neurosurgery and opportunity to observe live surgery will be provided.

Demonstration and practical application of neuronavigation in endoscopic skull base surgery will be provided also.

At the conclusion of the course the participants should be able to discuss the latest advances and controversies in endoscopic endonasal approaches to the skull base and describe principles and techniques in endoscopic surgery for pituitary adenomas.

I am looking forward to welcoming you in Novi Sad.

Petar Vulekovic

Course Director
Petar Vulekovic

Clinical Center of Vojvodina, Novi Sad, Serbia

Faculty - Honored Guests
Paolo Castelnuovo
Professor & Chairman of Otorhinolaryngology
Università dell’Insubria, Varese, Italy

Davide Locatelli
Professor in endoscopic neurosurgery and minimal invasive surgery
Division of Neurosurgery
Ospedale San Matteo, Pavia, Italy

Faculty
Vladimir Papic
Clinic of Neurosurgery
Clinical Center of Vojvodina, Novi Sad

Vladimir Kljajic
Associate Professor of Otorhinolaryngology
ENT clinic, Clinical center of Vojvodina
Clinical Center of Vojvodina, Novi Sad

Vera Popovic
Professor & Head of Department of Neuroendocrinology
Dept. Neuroendocrinology, Clinic of Endocrinology
Clinical Center of Serbia, Beograd

Milica Medic-Stojanoska
Professor
Clinic for Endocrinology, Diabetes and Metabolism
Clinical Center of Vojvodina, Novi Sad

Stevan Idjuski
Head of department
Emergency Centre – Emergency Radiology Department
Clinical Center of Vojvodina, Novi Sad

Robert Semnic
Associated Professor
Oncology Institute of Vojvodina, Sremska Kamenica

Nada Vuckovic
Professor
Department of Pathology
Medical Faculty Novi Sad, University of Novi Sad
7. September 2012.

10:00 Endoscopic endonasal approach to pituitary tumors in Novi Sad
Prof. dr Petar Vulekovic

10:20 Magnetic resonance imaging in diagnosis of pituitary tumors
Prof. dr Robert Seminic

10:40 Surgical anatomy in sellar tumor surgery
Doc. dr Vladimir Kljajic

11:00 Futoska 109.
21000 Novi Sad, Serbia

11:20 The role of medical therapy in management of pituitary tumors
Prof. dr Milica Medic-Stojanoska

11:40 Endoscopic endonasal surgery of sellar and parasellar lesions
Prof. dr Davide Locatelli

12:00 Pathologic characteristics of anterior pituitary tumors
Doc. dr Vladimir Kljajic

12:20 Lunch seminar - Neuronavigation

12:40 Case report
Ass. dr Vladimir Papic

14:00 Demonstration of surgical intervention
Prof. dr Petar Vulekovic, Ass. dr Vladimir Papic,
Doc. dr Vladimir Kljajic

14:20 Discussion
Prof. dr Petar Vulekovic, Prof. dr Paolo Castelnuovo,
Prof. dr Davide Locatelli

19:00 Gala dinner

09:00 Suprasellar masses - through endocrine lens
Prof. dr Vera Popovic-Brcic

09:20 Surgical approaches to macroadenoma with suprasellar propagation. Ass. dr Vladimir Papic

09:40 How to avoid and manage major complications in skull base surgery. Prof. dr Paolo Castelnuovo

10:00 Coffee break

10:20 Case report
Ass. dr Vladimir Papic

10:40 Demonstration of surgical intervention
Prof. dr Petar Vulekovic, Ass. dr Vladimir Papic,
Doc. dr Vladimir Kljajic

11:00 Discussion and Final remarks
Prof. dr Petar Vulekovic, Prof. dr Paolo Castelnuovo,
Prof. dr Davide Locatelli
